

Northwest Association for Biomedical Research (NWABR)
and
Pacific Science Center

have partnered to organize

Life Sciences Research Weekend

November 6-8, 2009 Pacific Science Center's
LIFE SCIENCES
RESEARCH WEEKEND

for the future geneticist.

the budding botanist.

the practicing mammalogist.

and the biochemist in training.

BOEING

PACIFIC SCIENCE CENTER

Organized in partnership with Northwest Association for Biomedical Research. Presented by The Boeing Company with additional support from Battelle. Located under the arches, near the Space Needle. pacificsciencecenter.org (206) 443-2001

November 6-8, 2009

at Pacific Science Center

Friday 10 am to 4 pm
Saturday 10 am to 5 pm
Sunday 10 am to 5 pm

Life sciences research institutions and companies will host **hands-on activities** that will engage children – and adults!

- Squish strawberries and extract DNA
- Touch a sheep heart
- Make an antibody model
- View mutant flies, worms and plants
- Build a DNA double helix
and much more!

This event showcases the great research and talented scientists in our community. Come meet real scientists and see the passion they have for the work they do.
