Dear Campers and Parents,

I hope you and your family are safe and well. As always, student safety is our first concern and we continue to monitor the rapidly evolving COVID-19 situation and related guidelines from the Washington State and the Superintendent of Public Instruction.

Currently, Camp BIOmed is scheduled to run at all the three locations (Spokane, Seattle and Bellevue) per the original dates. However, we have reduced the maximum number of enrollments per class from 14 to 10. Early bird Discount has been extended to May 15 2020.

If these guidelines require us to cancel the camps, we will notify you of the cancellations and refund your payments.

For any concerns or questions, please contact Mansi Kaushik at 435-786-8138, 205-957-3337 or email at camp@nwabr.org
