

Clinical Research Professionals Conference

Northwest Association for Biomedical Research and the Pacific Northwest Chapter of the Association of Clinical Research Professionals (PNCACRP)

This conference is designed for clinical research professionals who have the role of ensuring the ongoing integrity of research within their institutions.

Enjoy presentations given by local, national and international speakers on featured topics such as:

- Tools for patient-centered medical device trials
- FDA compliance and enforcement
- Launching competency-based onboarding for team members
- Case analysis of Dr. He Jiankui's secret CRISPR baby experiment
- How to streamline clinical trials workload
- Impacting culture change in the workplace
