Our world is changing Jennifer Iwamoto (UW) A representative from Huron A hands on demonstration of how e-solutions are improving the efficiency and effectiveness of IACUCs, IRBs and IBCs.

Time	Portland 11/7	Spokane 11/14
11.30	<p>Compassion Fatigue Project Preston Van Hooser (UW) Compassion fatigue (CF) occurs when some aspect of a person's day to day work is traumatizing. CF can happen in all industries – and it has been found to be high in biomedical research when staff and volunteers have to deal with difficult medical circumstances and outcomes. CF can result in staff and organizational actions that do not reflect the underlying mission of an organization. This presentation will provide a review of the implementation of a compassion fatigue project, the steps and missteps and some of the surprising findings and benefits.</p>	<p>Compassion Fatigue Project Preston Van Hooser (UW) Compassion fatigue (CF) occurs when some aspect of a person's day to day work is traumatizing.
