

Crossing the I's Inaugural Spokane Conference

Our Crossing the I's Conference combines the core material covered in traditional IACUC, IRB and IBC conferences and delivers this material in an accessible way, with plenty of time for networking, small group discussions and information sharing.

Who should attend? Members and support staff of IBC, IACUC and IRB committees as well as researchers who interface with these groups would benefit from the conference.

December 7, 2016

8:30am-4:00pm

Philanthropy Center

1020 W. Riverside Ave. Spokane, WA 99201

About NWABR

Founded in 1989, Northwest Association for Biomedical Research strengthens the public's trust in biomedical research and its ethical conduct. Our stakeholders include our members, the public, students and teachers. Our programs encourage critical thinking about issues in biomedicine and education while supporting the learning, citizenship and research efforts of our stakeholders.
