

# Want to be Informed about Medical Research and Inspired for Science Careers? NWABR can Help

---

## Invite an NWABR Research Ambassador to your

- Classroom
- Service Organization (Rotary, Eagles etc.)
- Workplace Brown Bag Lecture
- Science Club

Research Ambassadors reach and engage the Community with core messages about biomedical research, their personal and professional roles, and the importance of ethically conducted research to assure advances in human and animal health. Talks can be given in person or by video chat. This program is free of charge and funded in part by the Washington Global Health Alliance.
