

Dr. Sarah Louie

Instructor: Camp BIOmed, NWABR

This is Dr. Louie's first year as a NWABR teacher and her 7th year in 6-12th grade science education. She is a native of eastern Washington and a proud graduate of the University of Washington, having earned her doctorate in Pharmacology and bachelors in Botany there. After working in molecular and cellular biology research for 20 years in molecular signaling in brain development, Dr. Louie fulfilled a long time interest in teaching by earning her Masters in Teaching Math and Science from the Seattle Pacific University MTMS Program. Dr. Louie has continued to pursue her interests in science and education by attending the Science Education Partnership Program at the Fred Hutch, the FDA Food Science Program, the ASU Sustainability Program and the Climate Reality Leadership Program in recent years. Dr. Louie is passionate about teaching science, doing her volunteering jobs at Lifelong and her local P-Patch and most of all spending time with her family!
