

Swedish Medical Center is looking for a Full time Research Nurse Coordinator – Clinical Trials Research at First Hill in Seattle, WA.

Text for IO#: 29447

Posting Date: 09/09/14

The Research Nurse Coordinator independently coordinates research and administrative tasks in support of one or more research studies.

The First Hill campus sits in the heart of the Emerald City. An excellent location for commuting options - just minutes away from downtown. Located in a convenient, vibrant area for taking advantage of Seattle's thriving local arts scene, excellent dining, nightlife, and recreation options.

In this position you will:

- Coordinate all aspects of multiple industry sponsored clinical trials, including patient care activities and data reporting.
- Administer investigational agents and perform nursing activities under the supervision of the Principal Investigator and according to study and institutional policies
- Recruit and retain participants in research trials
- Serve as clinical resource to non-licensed research coordinators working in the department
- Train and mentor new research coordinators in the department
- Maintain detailed knowledge of FDA regulations related to clinical trials and GCP (Good Clinical Practice)

Required qualifications for this position include:

- Nursing Baccalaureate degree (BSN) from an accredited school of nursing. Applicants without a BSN degree must actively pursue and attain a BSN within 5 years of hire. Continued employment by Swedish beyond 5 years is contingent upon attaining the BSN degree
- Current Washington state RN License
- Previous nursing experience within specified research field
- Working knowledge of Microsoft Office software

About the First Hill Campus.

The 697-bed tertiary-care center on the Swedish/First Hill campus is the flagship of the Swedish health-care system. Swedish/First Hill has one of the most active and advanced birthing programs in Washington state and houses a Level III neonatal intensive-care unit. More surgeries are performed each year at Swedish/First Hill than at any other facility in the region; volumes include more total joint replacements than any other medical center in the state.
